

Traveling

What is traveling?

- Traveling is going from one point to another (e.g. You are in Canada and you go to America)
- There are many reasons to travel for example work or vacation

Traveling for work

- Sometimes people have to travel for work.
- It might be for a off sight meeting or it could be a job were you have to go from one place to another like a mailman.

Traveling for vacation

- This is very common for a lot of people.
- Traveling to new places and exploring new cultures is a fun and exciting activity but can sometimes be pricy.

Benefits of traveling

- Traveling is fun and calming and some places you travel too can help you with medical issues; if you have a sun deficiency you can go to Hawaii.
- It can also help you learn new languages and change your views on the world.

Best places to travel

Well this is completely opinion based because some people like forests some people like desserts some people like hot weather some people like cold weather.

In general though these are the best places

- New Zealand
- Paris
- Bora Bora
- Glacier National Park
- London
- Maui
- Tahiti
- Tokyo

Wrap up

Now that you know a little bit about traveling; were are you going to go next?
